

DB620C / DB625C

DOLPHIN INFRARED URINAL FLUSH VALVE KIT

- › WRAS Approved product
- › Touch Free Proximity Sensors – eliminates cross contamination. Senses when user is present and flushes urinal when user walks away
- › Direct flush does not incorporate or work with cistern, this saves the bacteria growth associated with stored water
- › Needs a 15mm feed
- › It is recommended that a vacuum breaker is used in conjunction with these products or otherwise as stipulated to comply with local water regulations
- › Vandal resistant, ideal for educational institutions, detention centres, train stations
- › Settings are adjustable using remote control (DB51) or manually
- › Sensor features a low battery level indicator
- › Mandatory Hygiene Flush recommended and available – please specify when ordering
- › 2 years manufacturer's warranty
- › Pressure: 0.5 - 8.0 bar (7-116 PSI)
- › Powder coated finish available – please enquire with the team
- › Flow rate un-restricted as standard with flow time set to 6 seconds as default (adjusted between 1 second min – 20 seconds max in 1 second increments)
- › The flow time can be adjusted by using a remote control which can be purchased from Dolphin - DB51
- › Powered by 9v battery
- › Power connections: Urinal flush: female / Power source: male

DIAMETER

34MM
