

DS314

STRATAPLATE PANEL MOUNTED 55° INFORM SOAP DISPENSER

- > Touch free wall mounted infrared soap dispenser - StrataPlate version
- > Comes as standard with 150mm projection, other lengths are available on request
- > High quality 316 stainless steel construction
- > Available in liquid (.L) and foam (.F) soap versions
- > Available in Brushed and mirror polished stainless steel, PVD, Ceramic coating in all colours, and Powder coated in any RAL colour.
- > Soap Reservoir options include – 1,2 or 5 ltr bottle, multifeed systems (cartridge systems) or DS800 or DS810 cartridge systems
- > Designed to be paired with DS112 tap
- > SMART enabled to allow for better control of your washroom (when bought with a bluetooth adaptor)
- > Can be bought with a hard wired or plug in transformer
- > Designed as a plug and play system for most common installations – but in special cases, soap delivery time, pump speed, and sensor distance setting can be changed via dolphin app when bluetooth adaptor is installed
- > StrataPlate kit to allow for hassle-free installation (offset adaptor available to reduce wall space needed in the vanity) No access panel needed when StrataPlate system is installed
- > Comes with 1.4m conduit
- > Effective maximum length of soap tube and cable is 1.8m
- > 19mm mounting hole in splashback required
- > WELL compliant if you take out bottle and clean or replace every time before refilling - or you can also use a cartridge system to achieve this
- > Default liquid soap dose of approx. 1ml
- > 5 year warranty
- > Doc M compliant
- > Typical power consumption 0.5A per activation
- > Supplied with 1A power supply
- > Working parts are all housed inside the body – saving space in the wall cavity, and ease of maintenance

PROJECTION	150MM
BODY DIAMETER	22MM
ROSETTE DIAMETER	44MM
