PRE INSTALLATION

> Where possible check that all the components in the list above are present and that they are in good condition before installation. If any components are missing contact Dolphin Solutions.

⚠ WARNING

> Highly reflective surfaces directly beneath the sensor of this product, in particular polished finish basin wastes/strainers, will cause false activation of the infrared sensors and can result in malfunction. We recommend Satin or Matt finish products which can be found on our website.

> Sitting water may also cause the tap to activate

> All Electrical installation must be carried out by a qualified person and in accordance with applicable codes and regulations.

> Do not kink the supply hoses.
