

BC200EH

DOLPHIN HORIZONTAL BABY CHANGING TABLE

- > Surface-mounted horizontal baby changing station made of polypropylene
- > Offers a very high level of safety and cleanliness - an ideal solution for public spaces such as shopping centers, airports, public buildings, childcare centres, etc.
- > Suitable for high traffic facilities with high strength and durability
- > Simple and stylish design helps the unit to blend into any space perfectly
- > Supplied (inside the packing box) with child protection straps made of nylon
- > A pair of bag hooks (one at the right side and the other one at the left) help to keep personal belongings close and at hand
- > Fully complies with the EN 12221-1 and EN 12221-2 standards that require baby changing stations be able to support a 50 Kg static load test for one hour. Units tested in-house have withstood loads of over 100 kg
